

Work to Be Pushed Forward with | Walter B. Williams & Co., Aucts. All Possible Speed.

Six Engines to Be Used, with Double Shifts of Men-The Big Conduit in Good Condition.

The board of expert engineers which has been in session here during the past week and has had under consideration the ques-tion of the best plan of increasing the water supply of the District, completed its labors and adjourned last Saturday. The question

and adjourned last Saturday. The question that they have had under discussion has been the availability of the Lydecker tunnel as a mesors of conveying water from the distribution reservoir to the Howard University reservoir.

The board made a personal examination of the tunnel and also neard testimony from both civil and military expert engineers, who had investigated the condition of the tunnel and inferent times. The examination was managered somewhat by the amount of water in the section near the Foundry branch shaft, where the inflow from either end accumulates. But enough was seen to warrant the expense of pamping it outside work has already begun.

The inspection disclosed the fact that much of the brick liming was in an excellent state of preservation, but above and behind the area there are finny places where the intersless have not been properly filled up and this work will take considerable time. The floor of the timnel was found to be remarkably free from obstructions and one may walk almost its entire length without stoopans, except where longs stone and took have been purposely left to be used for filling in at some fluture date.

The loand of inspection was composed of the following officers and civilians, who

posely left to be used for filling in at some flature date.

The board of inspection was composed of the following officers and civilians, who were nesisted in their work by Col. George H. Elliot, who is in charge of the Washington Aquedoct: Maj. W. E. Marshall, Capt. James S. Link, Mr. Desmond Filtzgeraki and Capt. D. D. Gaillard, who has been delaried in charge of the work of pumping out the tannel. It is thought that this will be accomplished by the first of the new year, and then the board will be called together again, when they will make another and more complete inspection.

The first joint was started on Saturday and another began its work yesterday morning, and by the end of the week it is thought that its will be running. These pumps will be worked night and day and two sholds of men will have charge of them. They are what is called five-inch suction pumps, with a four inch discharge, and they throw a stream of water beside which a runninon fire hose stream is a more pigner. There will be two at Howard University shart, one at Champlain avenue, two at Rock Creek opening and one at Foundry Stranch, the last being already in operation.

THREE ELECTION COMMITTEES. Republicans Said to Have so Decided

at Yesterday's Conference. Shall there be one, two or three committees to decide the thirty old contested election cases now before the House?

That is the question which Speaker Reed is trying to settle, and in order to reach a conclusion be committed vesterday afternoon with the leading Republican and Demogratic members. This conference occurred in the Speaker's private room. It was attended by Messrs, Payne and Daniels of New York, Henderson of Iowa, Camoon of Blands, and Dalzell of Pennsylvania, Republicans, and ex-Speaker Crisp of Georgia. Mr. Bailey of Texas, and Mr. McMillin of Tennessee.

of Georgia. Mr. Bulley of Texas, and Mr. McMillin of Tennessee.

The conference lasted an hour. At the expiration of that time the Democrats withdrew and the Republicans informally discussed the matter for an hour longer. The Republicans were a unit in favor of the Republicans were a unit in favor of the Republicans. The Repulsicans were a time in layer of three committees, to consist of time members each. Mr. McMillin of Tennessee favored one large committee of, say, twenty-seven members.

Mr. Bailey of Texas was apparently influenced by the Republican argument.

Mr. Bailey of Texas was apparently influenced by the Republican argument, and he is reported as not looking with distayor upon a division of the committee. Ex-Speaker Crisp is reported to have done more latering than talking, but he was opposed to the general proposition.

There is little doubt that the result of the conference will be the formation of three committees, which will be announced with the other committees on possibly Friday of this week, just before the adjournment for the holidays.

It is understood that Mr. Powers of Vermont was tendered the chairmanship of one of the committees and that he declined it.

## BATTLESHIP BIDS.

One May Go to the Coast Under the Secretary's Decision.

Secretary's Decision.

Secretary Herbert has decided to give the Union Iron Works of San Francisco an opportunity to secure one of the two battleships—No. 5 and No. 6—for which were recently opened at the Navy Department, through the medium of modifying its bids, made at that time, for constructing one or both of the vessels on the plans prepared by the department.

Secretary Herbert is auxious to have one of the battleships go to the Pacffic coast, but he fees that he cannot conscentiously accept the proposition of the Union Iron Works at their present figures.

His decision to give the San Francisco firm an opportunity to reduce its bid, based on the government's plans, indicates his willingness in this respect. It also shows that the Newport News Company will secure one of the vessels, and that the proposal of the Messrs, Cramp, with respect to the construction of three ships, have been rejected.

Brust Almost Knocked Stanton Out.
Paterson, N. J., Dec. 17.—At the Active Athletic Chib's "stag" last night Billy Ernst easily demonstrated his superiority over Stanton Abboit. Eight rounds were fought, and at the end Abboit was all but knocked out. The referee, John P. Eckhardt, gave Ernst the decision.

Ended His Life by Shooting. Columbus, Ohio, Dec. 17.—John Schillinger, a business man of Newark, committed suicide vesterday by shooting himself through the head. He was married only a few months ago. Business troubles was the cause.
